Regency Energy Acquires Gas Gathering System From Affiliate of GE Energy Financial Services

Hugoton Gathering System Will Double Regency's Footprint in Kansas

DALLAS and HOUSTON, Dec. 11, 2007 – Regency Energy Partners LP (Nasdaq: RGNC) has agreed to acquire FrontStreet Hugoton, LLC from an affiliate of GE Energy Financial Services, a unit of GE (NYSE: GE), and FrontStreet EnergyOne, LLC, for \$139 million, expanding Regency's asset base in the Midcontinent region. This acquisition will be immediately accretive to cash available for distribution.

Regency will fund the previously announced transaction by issuing 4.7 million Class D limited partner units to an affiliate of GE Energy Financial Services and \$11.7 million of cash to FrontStreet EnergyOne, LLC. The newly issued units will not participate in distributions for the fourth quarter 2007 and will thereafter be entitled to convert to common units on a one-for-one basis on February 15, 2008.

FrontStreet Hugoton, LLC owns the Hugoton gas gathering system in Kansas and Oklahoma, which consists of five compressor stations with 55,329 horsepower and 1,700 miles of pipeline extending over nine counties. The Hugoton system is operated by BP America Production Co., a wholly owned subsidiary of BP PLC.

"This acquisition represents a drop-down from GE Energy Financial Services' midstream portfolio to Regency," said James F. Burgoyne, Chairman of Regency's Executive Committee and Managing Director at GE Energy Financial Services. "In line with our strategy of leveraging Regency as a platform for growth in the midstream sector, we expect this acquisition will be supplemented by additional acquisitions along with organic growth."

"The Hugoton assets significantly expand our presence in Kansas and complement our existing gathering system in the Midcontinent region," said James W. Hunt, Chairman, President and Chief Executive Officer of Regency. "This area in Southwest Kansas consists of long-lived, mature reserves that have been producing since the 1930s."
