FrontStreet Acquires US Subsidiary

FrontStreet Partners, LLC today announced that has purchased all of the shares of Four Star Oil and Gas Company, a domestic subsidiary with real property located in the San Francisco Bay Area and Santa Maria, California. The acquisition was completed using FrontStreet Indonesia, LLC as the acquiring company.

Tom Dougherty, Managing Partner for FrontStreet stated: "We are excited about acquiring a company with such an outstanding portfolio of properties. The Bay Area in particular is one of the most vibrant and beautiful areas in the entire country. Four Star's properties a ripe for development into something very special. With its recent exit from the oil and gas business behind it we think that Four Star is perfectly positioned to prosper in the world of real estate development."
