NEWS & ANNOUNCEMENTS FROM FOUR STAR OIL & GAS COMPANY

March 10, 2020

Four Star Records Changes to Configuration of Lots

Four Star Oil & Gas Company, a wholly-owned subsidiary of the FrontStreet group of companies today announced that it has recorded changes to the configuration of its properties in Point Richmond, California. The properties, which are ideally located just steps from San Francisco Bay, are some of the last remaining parcels of developable land in the Bay Area.

Tom Dougherty, President of Four Star, stated: "We are very pleased that Four Star was able to negotiate California's complex regulatory environment and gain approval for a lot reconfiguration proposal that promises benefits for current and future residents of Point Richmond. The approval of the plan, which was recently confirmed by the City of Richmond Planning Commission following a careful review of the facts and law, shows that responsible development in California is possible for all who can effectively make a case for it."
